

# A WIDER CIRCLE

## Career Support

### What We Do

Career Support is a network of dedicated staff and volunteers here to support you as you manage work-life balance and navigate your career journey. Our team provides a safe space for self-exploration and experimentation for individuals re-entering the workplace, actively seeking employment, or making a career transition.

Career counseling and professional coaching are available to help you create a job search strategy, develop your resume, and prepare for interviews. We also connect you to valuable resources.

There are no eligibility requirements. Services are available at no cost.
